

Outsourcing in Clinical Trials - Canada

Toronto, Ontario – October 26, 2011 – SciAn presents at this conference (<http://www.arena-international.com/poutcanada/programme?day=2&dlb=1#days>):

“Developing accurate cost estimates to stay within tight budget constraints through your study's lifecycle”

Presenters: St. Clare Chung & Miklos L. Schulz

- Analyzing four case studies working with Canadian pharma and biotech to illustrate collaborative efforts for successful study completion
- Defining requirements for accurate cost estimates Delineating explicit requirements to efficiently work through on-study changes
- Examining the steps you must take to establish and maintain mutual trust
- Inspecting the most effective costing models based on study design to accommodate both sponsor and vendor needs
- Demonstrating readily available tools that can help you optimize your budget “on the fly”

About SciAn

SciAn Services, Inc. is a North American leading provider of configured clinical data management solutions. Biotech, pharmaceutical companies and academic research groups rely on SciAn's 15 years of experience in providing fully configured EDC database libraries for oncology clinical trials on a cost-effective monthly subscription basis. The company's service depth is further backed by industry renowned expertise in data management, biostatistics and drug safety, derived from over 650 clinical trials in a wide range of therapeutic areas.
